

# Corian® Solid Surface

Ref. 150000004173 Revision Date 27.04.2020 Version 3.1 (replaces: Version 3.0) Issue Date 29.04.2020

The composition information contained in this document is provided to satisfy the requirements of Regulation (EC) No 1907/2006 (REACH), Article 33. Other information is provided voluntarily and is not subject to regulatory requirement.

## Identification of the article and of the company/undertaking

**Product identifier** 

Product name : Corian® Solid Surface

Relevant identified uses of the article and uses advised against

Use of the article : sheets and shaped articles, For professional users only.

Details of the supplier of the article information sheet

Company : Du Pont de Nemours (Luxembourg) S.à r.l.

Rue du General Patton / Contern

L-2984 Luxembourg

Luxembourg

Telephone : +352-3666-1000

Telefax : +352-3666-5060

E-mail address : sds-support@che.dupont.com

**Emergency telephone number** 

+(44)-870-8200418 (CHEMTREC)

## Corian® Solid Surface

Ref. 150000004173 Revision Date 27.04.2020 Version 3.1 (replaces: Version 3.0) Issue Date 29.04.2020

The product as such is not hazardous.

The hazards of this product are associated mainly with its processing.

Operations such as sawing, routing, drilling and sanding can generate dust.

WARNING!

May form combustible dust concentrations in air (during processing).

High concentrations of dust can irritate eyes, nose and respiratory system and cause coughing and sneezing. Corian<sup>®</sup> Solid Surface does not emit gas at room temperature. At higher temperatures, small amounts of methyl methacrylate and butyl acrylate can be released. The amounts are dependent upon temperature, time and other variables.

Additives in this product do not present a respiration hazard unless the product is ground to a powder of respirable size and the dust is inhaled. All dusts are potentially injurious to the respiratory tract if respirable particles are generated and inhaled.

#### Composition/information on ingredients

Identification of the article : Mineral-filled polymethylmethacrylate.

# **Article composition**

The above products are compliant to REACH registration obligations; Registration number(s) may not be provided because substance(s) are exempted, not yet registered under REACH or are registered under another regulatory process (biocide uses, plant protection products), etc.

#### First aid measures

## **Description of first aid measures**

Inhalation : If large amounts of dust are inhaled, or if exposed to fumes from overheating or

combustion, move to fresh air.

Skin contact : No hazards which require special first aid measures.

Eye contact : Rinse thoroughly with plenty of water, also under the eyelids.

Ingestion : No hazards which require special first aid measures.

# Most important symptoms and effects, both acute and delayed

Not relevant for article

## Indication of any immediate medical attention and special treatment needed

Not relevant for article

# Firefighting measures

### **Extinguishing media**

Suitable extinguishing media : Water spray, Dry chemical, Carbon dioxide (CO2), Foam

# Corian® Solid Surface

Ref. 150000004173 Revision Date 27.04.2020 Version 3.1 (replaces: Version 3.0) Issue Date 29.04.2020

## Special hazards arising from the article

Specific hazards during

firefighting

: Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and

in the presence of an ignition source is a potential dust explosion hazard.

Hazardous combustion products Carbon monoxide Carbon dioxide (CO2)

Methyl methacrylate monomer Aldehydes

Advice for firefighters

Not relevant for article

#### Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Personal precautions : No special precautions required.

**Environmental precautions** 

Environmental precautions : No special environmental precautions required.

## Methods and materials for containment and cleaning up

Methods for cleaning up : Dust deposits should not be allowed to accumulate on surfaces, as these may

form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with

compressed air). Non-sparking tools should be used.

#### Reference to other sections

Not relevant for article

### Handling and storage

# Precautions for safe handling

Advice on safe handling : Do not breathe dust. Do not breathe vapours or fumes that may be evolved

during processing. Wash hands before breaks and at the end of workday. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding

and bonding, or inert atmospheres.

## Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers

: No special storage conditions required.

### Specific end use(s)

reference period)			·
Respirable dust			

#### **Exposure controls**

Engineering measures : It is recommended that all dust control equipment such as local exhaust

ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). Use only appropriately classified electrical

equipment and powered industrial trucks.

Eye protection : Safety glasses

Respiratory protection : No personal respiratory protective equipment normally required. Dust safety

masks are recommended when the dust concentration is more than 10 mg/m3.

#### Physical and chemical properties

### Information on basic physical and chemical properties

Form : solid

Colour : various

Odour : odourless

Flash point : Not applicable

Flammability (solid, gas) : May form combustible dust concentrations in air.

Vapour pressure : Not applicable

Density : 1.6 - 1.8 g/cm3

Water solubility : insoluble

Partition coefficient: n-octanol/water : Not applicable

Viscosity, kinematic : Not applicable

Relative vapour density : Not applicable

## Other information

No other data to be specially mentioned.

## Stability and reactivity

# Corian® Solid Surface

Ref. 150000004173 Revision Date 27.04.2020 Version 3.1 (replaces: Version 3.0) Issue Date 29.04.2020

Reactivity : Not relevant for article

Chemical stability : Not relevant for article

Possibility of hazardous

reactions

: No applicable data available.

**Conditions to avoid** : None reasonably foreseeable. Stable under normal conditions.

**Incompatible materials** : Not relevant for article

Hazardous decomposition

products

: Methyl methacrylate monomer

n-Butyl acrylate

### Toxicological information

## Information on toxicological effects

Acute oral toxicity

Acute toxicity estimate: > 2,000 mg/kg

Method: Calculation method

Acute inhalation toxicity

Acute toxicity estimate : > 5 mg/l Method: Calculation method

Further information

This product has no known adverse effect on human health.
